

Hundreds of purpose-built materials. The highly specialized labels you need.

Brady has you covered with the widest range of colors, finishes and targeted applications in the industry.

All-Weather

Get extra durability outdoors and in tough, industrial workspaces. Choose labels that are reflective or resist UV light, chemicals, salt spray and cleaners.

Electrostatic Dissipative

Use high performance, low profile labels with static dissipative adhesive for machine readable applications, circuit boards and electronic components.

Flags

Create easy-to-read, permanent identification for wires and cables or to track assets in labs and manufacturing environments.

Glow in the Dark

Use high luminance labels to communicate safety in low-lit areas. Make exits, stairwells and evacuation routes clear to visitors and employees.

Heat Shrink

Choose industrial grade, heat-shrinkable sleeve labels for long lasting wire and cable identification. Built to Naval Air Systems Command (NAVAIR) and industry-specific standards.

Metallized

Use professional metallic-looking labels for rating plates, name plates and general identification of industrial products.

Multi-Purpose

Rely on white or clear labels for just about any industrial application involving high and low temperatures, harsh environments or regulatory specifications, including low-halide. Choose from various adhesion types: standard, high adhesion, ultra high adhesion or repositionable.

Tags/Inserts

Get added durability from tags engineered for extreme temperatures and abrasion. Use to wrap wire or cable bundles in patch panels and outlets.

Tamper Evident

Ensure product and sample integrity with tamper-evident labels. Choose from labels that fracture easily, leave a VOID footprint or destruct upon removal.

Unique Materials

From labels adhering to VELCRO® to durable, raised identification for switches, and even magnetic labels – Brady has you covered. Here are some of our most unique materials.

Washdown Resistant

Choose specially constructed labels built to outlast the harshest washdowns. Ideal for food and beverage processing.

Wrap Around

Protect important wire and cable ID using labels with a clear laminating barrier. The clear vinyl resists abrasions and chemicals while keeping the white printable area intact.

Bulk parts for high-volume printing

Bulk label parts offer a cost-effective solution for high-volume printing with the M710 printer. Look for material catalog numbers that begin with "BM", "BMC", "BM7" or "BM7C".

**Bulk label printing requires the media feeder and smart-cell spool which are included in the bulk material packaging.*
